**Re: BellSouth Telecommunications, LLC d/b/a AT&T Alabama's Petition for
Review of Administrator's Denial of Numbering Resources in the
Birmingham Rate Center
Docket No. _____**

Dear Mr. Thomas:

Enclosed for electronic filing today is AT&T Alabama's Petition for Review of
Administrator's Denial of Numbering Resources in the Birmingham Rate Center. The original
and one (1) paper copy will be sent via overnight mail to your office. Please distribute as
needed.

Thank you for your assistance in this matter.

Sincerely yours,

Francis B. Semmes
General Attorney – AT&T Alabama

FBS/mhs
Enclosures

cc: Honorable John Garner, Chief ALJ
Mr. Darrell A. Baker, Director (via email)
Mr. Doug Dillard (via email)

1121730

4. Among other things, FCC 00-104 adopted a revised standard for assessing a carrier's need for numbering resources by requiring carriers to report rate center based utilization data to the North American Number Plan Administrator ("NANPA"), rather than switch-specific utilization data. The FCC further required that, to qualify for access to new numbering resources, applicants must establish that existing inventory within the applicant's rate center will exhaust within six months of the application. The FCC reaffirmed this requirement in two subsequent orders. FCC 00-429 at ¶ 29 (rel. Dec. 29, 2000); FCC 01-362 at ¶¶ 48-49 (rel. Dec. 28, 2001).

5. In FCC 00-104, the FCC also directed the industry and the Pooling Administrator to comply with the Industry Numbering Committee ("INC") Thousand-Block Number Pooling Guidelines ("Pooling Guidelines") in implementing pooling trials.

6. Under the Pooling Guidelines, in order to obtain growth in Full-block allocations, the carrier must pass the same litmus test referenced in paragraph 4 above, by demonstrating that its existing numbering resources for the rate center will exhaust within six months.

7. The shift to a rate center basis from a switch basis for determining the need for new numbering resources was intended to "more accurately reflect how numbering resources are assigned" and to allow carriers "to obtain numbering resources in response to specific customer demands." FCC 00-104, ¶ 105.

8. In addition to the months-to-exhaust ("MTE") requirement described above, the FCC's rules also required carriers to meet a rate center utilization threshold of 60 percent, initially, in order to receive additional numbering resources in a given rate center. FCC 00-429 at ¶ 22; FCC 01-362, ¶¶ 50-52. The utilization threshold increased by five percent per year until it reached a maximum of 75 percent. Based on the FCC's orders, carriers must meet both the six month MTE requirement and the utilization threshold requirement, which increased to 75 percent

effective June 30, 2004, on a rate center basis in order to obtain additional numbering resources.
Id.

9. On December 12, 2014, AT&T Alabama submitted a Full NXX Dedicated Customer number block Application to NeuStar for the assignment of sequential numbers needed to meet the numbering demands of a customer in Birmingham. The affected AT&T Alabama customer is served by the **BRHMALCHDS0** switch in the Birmingham rate center. The application is attached hereto as Attachment 1.

10. The Full NXX Dedicated Customer number block was requested by the customer to meet their need for sequential numbers which are required due to equipment restrictions and growth.

11. At the time of the filing of the Full NXX Dedicated Customer number block Application, the MTE was **-857.669** months and the utilization of 55.061 percent. AT&T Alabama submitted this request because its **BRHMALCHDS0** switch that serves the customer does not have a block of sequential numbers large enough to meet the customer's request.

12. On December 12, 2014, NeuStar denied AT&T Alabama's request on the grounds that AT&T Alabama had not met the rate center based months-to-exhaust criterion and the 75 percent utilization threshold set forth in the Pooling Guidelines. NeuStar denied the numbering request despite the fact that AT&T Alabama does not have adequate numbering resources needed to satisfy its customer's demands in the above-referenced switch. This decision was received at the time of application and is so noted at the end of the application provided in Attachment 1.

13. AT&T Alabama's inability to provide this important customer with the requested numbers prevents AT&T Alabama from providing the quality of service this customer desires, needs, and expects. If AT&T Alabama is not assigned the blocks of numbers requested, which are needed to meet the customer's requirements, AT&T Alabama will be unable to provide

telecommunications services requested by this customer. NeuStar's refusal to grant numbering resources sufficient to meet the customer's needs is inconsistent with the FCC's position that "[u]nder no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources." FCC 00-429 at ¶ 61.

14. Both the FCC's rules and the Central Office Code (NXX) Guidelines provide that state regulatory authorities have the power and authority to review NANPA's decision to deny a request for numbering resources. See FCC 01-362, Appendix A, Final Rules, § 52.15(g)(4) ("The carrier may challenge the NANPA's decision to the appropriate state regulatory commission."); FCC 01-362 Central Office Code (NXX) Guidelines § 13.0 ("Appeals may include but are not limited to one or more of the following options: . . . C. The CO Code Administrator(s) and code holders/applicants may pursue the disagreement with the appropriate governmental/regulatory body").

15. In addition, the Pooling Guidelines provide that "the appropriate regulatory authority" has the power and authority to review a decision by NeuStar to deny a carrier's request for numbering resources (See INC Thousand-block Number Pooling Administration Guidelines ¶¶3.7, ¶12(c)). Since the FCC delegated authority to the Commission to implement number conservation measures in Alabama, the Commission is the appropriate regulatory authority to address this petition.

16. In FCC Order 01-362, released December 28, 2001, the FCC further clarifies the delegated authority given to the state commissions to address denials by the Pooling Administrator or NANPA for requests for numbering resources. In its order, the FCC addressed the "safety valve" process that allows carriers that do not meet the utilization criteria to obtain additional numbering resources stating, "[w]e agree with the commenting parties that a safety valve mechanism should be established, and we delegate authority to state commissions to hear

claims that a safety valve should be applied when the NANPA or Pooling Administrator denies a specific request for numbering resources.” (§61)

17. FCC Order 01-362 also addressed specific instances of code denials, which apply to this AT&T Alabama petition, stating “[w]e also clarify that states may grant requests by carriers that receive a specific customer request for numbering resources that exceeds their available inventory. Finally, we give states some flexibility to direct the NANPA or Pooling Administrator to assign additional numbering resources to carriers that have demonstrated a verifiable need for additional numbering resources outside of these specifically enumerated instances.” (§61)

18. Prior to the FCC’s orders the MTE procedures used by NANPA permitted a carrier to receive a code assignment, even if the MTE requirement at the switch level was not met. These waivers or exceptions were granted where customer hardships could be demonstrated or where the service provider’s inventory did not have a block of sequential numbers large enough to meet the customer’s specific request. Under today’s procedures, NANPA and NeuStar look at the MTE for the entire rate center without any exceptions. The FCC has determined, however, that States may grant relief “if a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory.” FCC 01-362, ¶ 64. In addition, the FCC has ruled that, “States...may grant requests for customers seeking contiguous blocks of numbers.” Id.

19. AT&T Alabama requests that the Commission reverse NeuStar’s decision to withhold numbering resources from AT&T Alabama on the following grounds:

(a) NeuStar's decision to withhold numbering resources from AT&T Alabama interferes with its ability to provide telecommunication services to its customers; and

(b) AT&T Alabama’s request for numbering resources would not materially impact exhaustion of the remaining NXXs available in the 205 area code.

20. The Commission has previously recognized its jurisdiction and authority to review NANPA and NeuStar denials and to order the release of numbering resources to meet customer demands. In fact, the Commission addressed similar situations and ordered NANPA and NeuStar to provide AT&T Alabama with needed numbering resources, even though AT&T Alabama had been unable to satisfy the required months-to-exhaust criteria. See Petition for Review of Numbering Resources Denial, Docket No. U-4648, *Order* dated January 26, 2005 and Petition for Review of Numbering Resources Denial, Docket No. U-4692, *Order* dated August 2, 2005.

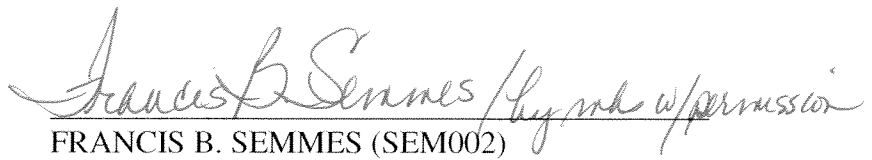

21. This customer's need for additional numbering resources is similar to those of other customers associated with the dockets identified above, in which the Commission reversed the NeuStar decisions. Therefore, all of the reasons supporting the Commission's intervention in the prior cases as well as the specific customer circumstances in the instant petition are cause for the Commission to reverse the NeuStar decision.

WHEREFORE, AT&T Alabama requests that the Commission:

1. Reverse the decision of NeuStar to deny AT&T Alabama's requests for additional numbering resources;
2. Direct NeuStar to provide the requested Full NXX Dedicated Customer block of numbers in the switch identified herein; and
3. Grant the requested relief as soon as practicable.

(Signature Page Follows)

Respectfully submitted this 16th day of December, 2014.

1.3 Dates: Date of Application: **12/12/2014**

Request Effective Date: ^{9 10}

02/16/2015

[] By selecting this checkbox, I acknowledge that I am requesting the earliest possible effective date the Administrator can grant. Please note that this only applies to a reduction in the Administrator's processing time, however the request will still be processed in the order received.

Request Expedited Treatment? Yes _____ No X

- 1.4 a) Type of company/entity requesting the code: Incumbent Local Exchange Carrier (ILEC) (LEC, IC, CMRS, Other)
b) Types of service: Wireline (e.g., Cellular - Type 2)
c) Code Assignment Preference (Optional) _____
d) Codes that are undesirable, if any _____
e) Type of change (Mark all that apply)
 [] OCN-Intra-company ¹¹ [] Switching Id [] Rate Center [] Tandem Homing CLLI
 [] OCN-Inter-company ¹² [] Effective Date [] LATA [] Extend Reservation

1.5 Type of Request (Initial, growth, etc.) Growth

If an initial code, attach (1) evidence of certification and (2) proof of ability to place code in service within 60 days. If a growth code, attach months to exhaust worksheet.

Pooling Indicator: ¹³ [X] Yes [] No

1.6 NPA Jeopardy Criteria Apply: [] Yes [] No

1.7 Code request for new service (Explain): _____

1.8 It is the code applicant's responsibility to arrange input of Part 2 information into BIRRDs. The 45-calendar day nationwide minimum interval cut-over for BIRRDs will not begin until input into BIRRDs has been completed.

Comments: _____

I hereby certify that the above information requesting an NXX code is true and accurate to the best of my knowledge and that this application has been prepared in accordance with Central Office Code (NXX) Assignment Guidelines posted to the ATIS Web Site (<http://www.atis.org/atis/clc/inc/incdocs.htm>) as of the date of this application: ¹⁴

Rena Buttica

Signature of Code Applicant

Sr. Specialist

Title

12/12/2014

Date

¹ Identify type and reason for change(s) in Section 1.4(e).

² A list of the current Code Administrator(s) who can provide assistance in completing this form is available upon request from NANPA.

³ The NXX field is required for any code request in which there is a change or the NXX is being returned.

⁴ Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments may contact NECA (800-228-8597) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignment should direct questions regarding appropriate OCN usage to the Telcordia TM Routing Administration (TRA) on 732-699-6700.

⁵ This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the eleven-character Telcordia TM COMMON LANGUAGE CLLI TM Location Identification of the applicant's switch or POI. (Telcordia and CLLI are trademarks and COMMON LANGUAGE is a registered trademarks of Telcordia Technologies, Inc.)

⁶ Rate Center name must be a tariffed Rate Center associated with toll billing.

⁷ Applies to any code applicant connecting to the Public Switched Telephone Network via a tandem owned by a different carrier.

⁸ This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the CLLI TM Location Identification Code of the switching entity/POI, and is the same on Part 2, Form 1, Page 2 of 2.

⁹ Code applicants should request an effective date that is at least 66 calendar days from the submission of this form. It should be noted that interconnection arrangements and facilities need to be in place prior to activation of a code. Such arrangements are outside the scope of these guidelines.

¹⁰ Requests for code assignment shall not be made more than six months prior to the requested effective date.

¹¹ Select if you are the current Code Holder

¹² Select if you are not the current Code Holder

¹³ The Applicant will indicate "YES" if the NXX being requested will be used for thousands-block number pooling and will leave this field blank if it is not.

¹⁴ An incomplete form may result in delays in processing this request.

<u>Block Requested</u>	<u>Available Numbers</u>	<u>Months To Exhaust</u>
1	380805	-857.669

I. Utilization⁶ =
$$\frac{\text{Assigned Numbers(B)} - \text{Excluded Numbers(D)}}{\text{Total Numbering Resources(C)-Excluded Numbers(D)}} \times 100 = \mathbf{55.061}$$

Explanation: _____

¹A copy of this worksheet is required to be submitted to the Pooling Administrator when requesting additional numbering resources in a rate center. For auditing purposes, the applicant must retain a copy of this document.

²Quantity of numbers activated in the past 90 days is based on blocks and/or codes received from the administrator and shall be reported in increments of 1,000 or 10,000 TNs (e. g.: 2 blocks received=2,000 and 1 code received =10,000).

³Net change in TNs no longer available for assignment in each previous month, starting with the most distant month as Month #1, and Month #6 as the current month.

⁴Forecast of TNs needed in each following month, starting with the most recent month as Month #1.

⁵To be assigned an additional thousands-block (NXX-X) for growth, "Months to Exhaust" must be less than or equal to 6 months. (FCC 00-104, section 52.15 (g) (3) (iii)).

⁶Newly acquired numbers may be excluded from the Utilization calculation (FCC 00104, section 52.15 (g)(3)(ii))

1.2 General Information:

Check one : No LRN needed X LRN needed

NPA: 205 LATA: 476 OCN: 9419 Parent Company's OCN 9400

Number of Thousands-Blocks Requested : 10

Switching Identification(Switch Entity/POI) : BRHMALCHDS0

City or Wire Center Name :

Rate Center:
 BIRMINGHAM

Rate Center Sub Zone:

1.3 Dates:

Date of Application: ^{vii} 12/12/2014

Requested Block Effective Date:
^{viii} 02/16/2015

[] By selecting this checkbox, I acknowledge that I am requesting the earliest possible effective date the Administrator can grant. Please note that this only applies to a reduction in the Administrator's processing time, however the request will still be processed in the order received.

Request Expedited Treatment? (See Section 8.6) Yes No X

1.4 Type of Service Provider Requesting the Thousands-Block :

- a) Type of Service Provider : Incumbent Local Exchange Carrier (ILEC) (LEC, IXC, CMRS, Other)
- b) Primary type of service Blocks to be used for : Wireline
- c) Thousands-Block(s) (NXX-X) assignment Preference (Optional)
- d) Thousands-Block(s) (NXX-X) that are undesirable for this assignment , if any
- e) If requesting a code for LRN purposes, indicate which block(s) you will be keeping(the remainder of the blocks will be given to the pool) N/A

1.5 Type of Request:

Initial block for rate center : Yes If Yes , attach evidence of authorization and proof of capability to provide service within 60 days.

Growth block for rate center : Yes X If Yes , attach months to exhaust worksheet

[] By selecting this checkbox, I acknowledge that I am willing to accept a block in red and explicitly understand that the underlying CO code may not yet be activated in the PSTN and loaded in the NPAC on the block effective date.

Type of change(Mark all that apply)

[] OCN:Intra-company ^{ix} [] Switching Id [] Part 1B

[] OCN:Inter-company ^x [] Effective Date

Change block : Yes If Yes , list NPA-NXX-X

1.6 Block Return :

- a) Is this block Contaminated Yes No
- b) If Yes how many TNs are NOT available for assignment :
- c) Have all new Intra SP ports been completed in the NPAC Yes No
- d) Has this block been protected from further assignment Yes No

Disconnect block : Yes _____ If Yes , list NPA-NXX-X _____

Remarks:

I hereby certify that the above information requesting an NXX-X block is true and accurate to the best of my knowledge and that this application has been prepared in accordance with the Thousands-Block (NXX-X) Pooling Administration Guidelines(ATIS-0300066) available on the ATIS web site (<http://www.atis.org/inc>) or by contacting inc@atis.org as of the date of this application.

Signature of Block Applicant

Sr. **Specialist** **12/12/2014**
Title **Date**

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia™ LERG™ Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia™ Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI™ tandem of the facilities based providerⁱ. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied. The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Foot Notes :

ⁱ Identify the type of change(s) in Section 1.5.

ⁱⁱ The Pool Administrator is available to assist in completing these forms.

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA.

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct

questions regarding appropriate OCN usage to (TRA) (732-699-6700).

^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLI™ code of the switch /POI.

^{vi} Rate Center name must be a tariffed Rate Center.

^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii} Please ensure that the NPA-NXX of the LRN to be associated with this block(s) is/will be active in the network prior to the effective date of the block(s).

^{ix} Select if you are the current Block Holder.

^x Select if you are not the current Block Holder

^{xi} Telcordia, LERG Routing Guide, and CLLI are trademarks of Telcordia Technologies, Inc.

X Form Complete, request denied.

Explanation:

DR-57: You do not meet the MTE and/or Utilization requirements, therefore this request for a new code is denied. You may proceed with requesting a State Waiver from the appropriate state commission using this Part 3 denial. If you are in disagreement with the disposition of this request, please refer to the Thousands'Block Number (NXX-X) Pooling Administration Guidelines for the appeals process.

Request withdrawn.

Explanation:

Assignment activity suspended by the administrator.

Explanation:

Remarks:

¹ This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the CLLI TM Location Identification code of the switching entity/POI shown on the Part 1A form (Telcordia, LERG ROUTING Guide and CLLI are trademarks of Telcordia Technologies, Inc.)
